ELINT EVALUATION WORKING GROUP

Minutes of Meeting - No. 4 - 16 January 1968

1. The ELINT Evaluation Working Group met on 16 January 1968 at CIA with the following members present:

STAT

Mr. William C. Andrews  
Mr. Robert D. Hilbish  
Lt. Col. Jack M. Parrish, USAF

STAT

Also attending were:

STAT

STAT

2.  described the systems analysis approach and illustrated some of the potential uses of the methodology which appear feasible. The approach will be useful in examining actual results and, more importantly, will treat problems of optimum tasking under a number of different states and constraints. A small model of the approach being developed for illustrative purposes will be demonstrated to the Group when it is completed.

3. A memorandum to the SIGINT Committee Chairman reflecting the Group's understanding of its assignment was prepared.

4. The general content and structure of the final report were briefly discussed, and a more detailed and explicit development will

DEPT  
FILE COPY

STAT be undertaken by [ ] for review at the next meeting.

5. Mr. Andrews outlined a comprehensive approach which could be used to address the total ELINT problems (see attachment). He will review the report outline, etc., to determine whether the various facets developed in his approach are given appropriate treatment.
